Days required for delivery: 16 Weeks
Price guarantee period: 1 Year
Minimum order: One
Min shipment without charges:
Other conditions:

REVISION #1: CONTRACT HAS BEEN EXTENDED THROUGH JAN. 15, 2001.

This contract covers only those items listed in the price schedule. It is the responsibility of the agency to ensure that other items purchased are invoiced separately. State agencies will place orders directly with the vendor (creating a PG in Finet) and make payments for the same on a PV referencing the original PG. Agencies will return to the vendor any invoice which reflects incorrect pricing.

RRN45 Rider Reach Truck, Nissan Brand 4500 lb @ 24" load center, electric \$27,220.00 ea. / delivered

SPECIFICATIONS

MAST: Triplex 240" lift/OHL=107/FL=87"

FORKS: 48" Standard Forks 1.75" x 4"

KEY FEATURES: Fully programmable vehicle management system, controls transistor drive and lift circuit self-diagnostic system
45 Degree angled operator position customized for comfort.
Narrow aisle chassis for outstanding manoeuvrability
360 degree electronic power steering travels in any direction, including reverse, with ease

True direction steering indicator for more confident operation
Safety glass mast guard
Triplex full free lift clearview mast
Battery compartment rollers
Battery compartment: 38.75" long x 16.4" wide x 32" high (minimum batter weight: 2000 lbs.)

OPERATOR CONTROL: Operator-friendly control center designed for comfort and ease of operation. Fingertip levers that control separate hydraulic functions, creating a simple, more natural feel. Height and tilt adjustable control pod for ease of operation. Low step height with a cushioned floor mat. Programmable drive and hydraulic controls adapt to the operator for their specific needs.

DRIVE SYSTEM: Heavy-duty class "H" in cooled drive motor is transistor controlled for smooth acceleration and high speed.

BRAKE SYSTEM: Electronic control applies brake when operator steps off brake pedal or turns key off. Hydraulic brake is connected to the top of the drive motor for increased braking power through transmission gear reduction.

CONTROL SYSTEM: Programmable transistor control system with built in self diagnostics to fit operator and application. Adjustments can be made without handsets or special tooling. Four hour meter registers keep track of operator performance for exceptional warehouse management.

ELECTRICAL SYSTEM: 36-volt electrical system.

WARRANTY: Covered by Nissan's exclusive 36-18-6 warranty, providing the longest and strongest warranty in the industry. 36 months or 5000 hours on the transmission and entire structure of the truck, including labor. 18 months and 2500 hours on the drive motor, hydraulic pump motor and major electronic components, including labor. 6 months or 1000 hours on all other parts.

DEALER OPTION: Champion maintenance free battery
Model 18-45-31
36 volt - 675 amp hr

DEALER OPTION: SCR Charger
Model SCR100-18-600 T1
Three Phase

REPORTS:

the contractor will submit yearly reports to the State Purchasing Agent (Debbie Gundersen) showing quantities and dollar volume of purchases by each agency and political subdivision. This report will be due by 1/1/2001.
